ABOUT IABS

In order to promote translational research, the Indian Academy of Biomedical Sciences (IABS) was established with the vision, keen interest, and efforts of various scientists from India and abroad. The main objective of the academy is to disseminate knowledge and academic excellence in the field of biomedical sciences. The academy is registered under the Societies Act 1860 of the Government of India (No.2826-2011-2012). The IABS organizes CMEs, Workshops, Symposia throughout the year at different places, and an Annual International Conference with the primary aim to foster collaboration between clinicians and scientists to promote biomedical research and innovations and academic excellence in the field of Biomedical Sciences.

ABOUT NIMHANS

The National Institute of Mental Health and Neuro Sciences (NIMHANS) is an institute of national importance and is recognized for its multidisciplinary approach for patient care and academic pursuit in the field of mental health and neurosciences.

NIMHANS is synonymous with providing high standards of clinical care, quality training and cutting-edge research in the frontier areas. Combined priorities for comprehensive patient care, manpower development and research, stem from the commitment to an integrated and multidisciplinary approach which addresses societal needs. The advances in genomics, computational neuroscience, mathematical modelling, neuroimaging, molecular biology and a host of new disciplines including public health, are being translated to help humanity in need and promote the growth of knowledge.

ABOUT BENGALURU

Bengaluru (also called Bangalore) is the capital of India's southern Karnataka state. Popularly known as the 'Garden City', it represents a rich cultural heritage of the past era combined with modern and high-tech facilities. Experience this amalgamation on your visit to Bengaluru! It is a city of gardens and lakes as well as of enchanting historical buildings, captivating temples and museums.
